

Office of the Fire Chief  
Lampasas, Texas

George,

I would like to start off by thanking you for all of your hard work as we built the 2023 Chevy Tahoe. Your commitment to making sure that we received the vehicle we needed was beyond what I anticipated. From your assistance with design to the resources for purchasing, you surpassed all of my expectations.

And once the vehicle arrived you continued to provide updates on the status. Your ability to provide information on what equipment was arriving and when it was all assembled helped to streamline the process of a quick delivery. I have no doubt that your tenacious organization is what led to such a great vehicle.

Everything is as we expected and the vehicle is fantastic. The workmanship by the installer was very professional and it all looks like the vehicle came that way from the factory. Everything is in good working order and we can't tell you enough about how much we appreciate the work.

I look forward to the next project that we do with Defender.

Jeff Smith *Jeffrey S. Smith*
